

3.2.1 Institution has created an ecosystem for innovations including incubation center and other initiatives for creation and transfer of knowledge

Institution has created an ecosystem for innovations and other initiatives for creation and transfer of knowledge. The institution has always been positive in creating an academic atmosphere that is encouraging, creative, innovative and progressive for all the students. The entire teaching learning process aims to create capable students and teachers who excel in whatever they are engaged in and to promote environment for research and development. The Institution has constituted a Research Committee to promote, facilitate and monitor research activities in the Institution. The following initiatives have been taken for creation and transfer of knowledge in the institution.

- ❖ The Research Committee encourages and provides necessary guidance to the faculties in submitting research proposals to UGC and other funding agencies.
- ❖ The teachers are encouraged to apply for recognized research to affiliated University. It also helps departments in submitting seminar proposals and motivates the teachers to pursue Ph. D. degree.
- ❖ The institute encourages and facilitates the faculties for attending seminars/workshops where they can present their research papers.
- ❖ The institute also encourages the faculties for publishing research papers/articles in recognized Magazines and Journals. They are provided with ample opportunities to submit innovative research papers, publish them as chapters, books and or in journals with ISBN and ISSN respectively.
- ❖ To facilitate smooth progress and implementation of research scheme/project following necessary steps have been taken:
 - Due independence is given to the teacher engaged into research work.
 - Due efforts have been made to make available all the necessary past reference literature or research works for review
 - Various resources like, Home Science laboratory with equipment's, computers, internet access, Journals, Reference books etc., are provided for research work.
 - Separate research section in central library is developed to access back volume of research journal and other concerned reference literature. Each teacher can make use of e-library with the facility of personal account in INFLIBNET/N-LIST.
 - The Institution invariably honours the faculty members who obtain Ph.D. degree, become research guide and those faculty members who present their papers/article in well-known Journals in our nation or abroad.
 - Due weightage have been given for MOU with other academic institution for research co-operation. It also includes students and faculty exchange programmes.
- ❖ Following efforts have been made by the institution to develop scientific temper and research culture and aptitude among students.

Students are informed about the research carried out by faculty members for an inspiration. Our institution organizes seminars/workshop and expert's lecture frequently.
- ❖ Transfer and sharing of knowledge is also done with the help of the workshops, guest lectures and students are encouraged to participate in them.
- ❖ The Institution promotes and grants duty leave to the faculty to participate in orientation course, Refresher course, Faculty Development Programme organized by KCG and short term training programmes organized all over India. The Institution supports the departments to organize university level, state level and national level workshops, seminars in the Institute. Faculty members have published many Books and research papers in professional journals during the last five years. Through all these activities, the Institution has set up a system for transfer of knowledge not only to the students but also to the society. There is a well-planned garden in the front of the main building which is the collaborative efforts of Students, Staff and some experts. The Institution has installed the system for rain water harvesting by creating large water tank in the campus with deep percolation wells inside it. It is connected with the water pipes from the terrace. A big pit has been dug up in the campus for the disposal of solid wastes.

3.3.3 Number of Ph.D. awarded per teacher during last 5 years.

Guide: Dr. Rohitkumar N. Desai

Sr. No.	Years of Registration of the Scholar Ph.D	Regi.No.	Name of Scholars	Guide Name	Subject	Faculty	Title of the Thesis
